

April 2021

Are you looking to make a Difference for children and families?

CHILD is seeking candidates for its 2021-2022 Speech Language Pathology Clinical Fellowship!

This fellowship provides an opportunity to work in a pediatric setting committed to a collaborative relationship-based approach to learning where children progress! Supervision will be provided by a neurodiversity-informed SLP on-site.

Join our fantastic team of educators, therapists, parents, and other professionals in the critical role of Speech and Language Therapist (SLP) in a unique school + clinic environment. Children present with a variety of challenges associated with autism, learning disabilities, developmental delays, and other conditions impacting language and communication.

Responsibilities include:

- Speech/Language/Communication Evaluation process;
- Create, monitor, and carry out all aspects of the Communication IEP/Therapy plan;
- Provide extensive consult/support with staff and families.

There will also be opportunities to participate in and develop on-site trainings and professional development.

Benefits include: Health Care (including Vision and Dental), 401(k) with company match, Professional License Fee + Liability Insurance Reimbursement, Continuing Ed, Paid time off

Position Requires: Completed Master's Degree

Salary: \$65,000 annually
